

MIKE

A FEW MORE BITS & PIECES. I DON'T WANT TO KEEP "DUMPING" STUFF ON YOU YOU DON'T WANT BUT I THOUGHT THE WALL-BOXES WOULD BE USEFUL TO YOU (FOR GEAR-LESS LANTERNS).

ALSO A COUPLE OF THE 1000 W GLS BULBS AS PROMISED. THESE HAVE SAT ON THE SHELF SINCE THE MID SIXTIES. THEY USED TO BE USED IN THE MARKET HALL AND IN "SHOVEL" FLOOD FITTINGS AROUND THE EAGLE CENTRE CARPARK AND LOADING BAYS WHEN THE EAGLE CENTRE FIRST OPENED, THE PAPER COLLAR AROUND THE NECK OF THE BULB WAS SUPPOSED TO BE LEFT ON UNTIL THE BULB WAS FITTED TO PREVENT IT SCRATCHING ON THE LAMPHOLDER / FITTING.

THE VERY SORRY LOOKING BETA 5 IS THE ONE FROM THE GISBOURNE CLOSE / CLIFTON RD FOOTPATH. THE CONCRETE COLUMN WAS DEMOLISHED ON MONDAY. ALL I COULD FIND AT THE YARD AMONGST A MASS OF SMASHED CONCRETE WAS PART OF THE SWAN-NECK (SMASHED) AND THE LANTERN IN THIS STATE, I'D LIKE IT TO BE PRESERVED (AND THOUGHT YOU WOULD). I INCLUDE A REPLACEMENT LAMPHOLDER AND A NEW BOWL AND A COUPLE OF THORN LAMPS (I ALWAYS USED THESE IN THIS LANTERN AND HAVE A SMALL STASH OF THEM IF YOU'D LIKE ANY MORE). AS YOU KNOW I LOOKED AFTER THIS FOR MANY YEARS - LONG BEFORE I WORKED FOR STREET LIGHTING.

SEE YOU SOON

JEREMY
