

signature internally illuminated box signs

Signature offers the most versatile range of internally illuminated box signs available in the UK market. Manufactured to meet current regulatory standards for use on UK roads and highways, other designs are readily available such as those used at Airports and commercial use. Through continued research and development, Signatures range of box signs use up-to-date technology, special polycarbonate and current energy savings options such as low voltage and LED's.

STANDARD MODELS

- Up to 750mm - tough polyethylene available as standard grey or black (White exterior).
- Over 750mm - extruded aluminium - powder coated, grey as standard, other colours available (White interior).
- All illuminated units can be wall mounted, back or post top fixing. Options include: lower window to illuminate supplementary signage, inspection window, photocell, vandal resistant bonded rim c/w tamper proof fasteners.

Box unit - Available as single or double sided units.

Rim - Moulded flange inside the outer edge provides extra security.

Panel - Polycarbonate laid with 3M Diamond Grade material - 12 year reflective guarantee.

Mounting - Back fix (Extruded aluminium channel section) Post top (Cast aluminium).

Fixings - Stainless steel

Gear Tray - Independently fused with power correction factor as standard 7W, 8W, 13W, 15W and LED (Configuration to suit box size lighting levels)

USEFUL PRODUCT CODES - Diagram references as supplied by customer.
