

signature contracting services

Signature continues to develop its products and services to meet the demands of an ever-changing market place. Long-term partnerships both with its customers and suppliers, ensures that Signature are equipped to exceed these requirements for many years to come. Signature are proud of its ability to be flexible in its approach to project management, without jeopardising quality and service to its customers. For specific project customer referral please contact our sales office.

PLANT HIRE

Certified to Chapter 8 of DoT

Wicket road signs.

Amongst the products available on hire, maintenance and scheme projects can also be undertaken utilising the latest INTERAC® computer aided design package.

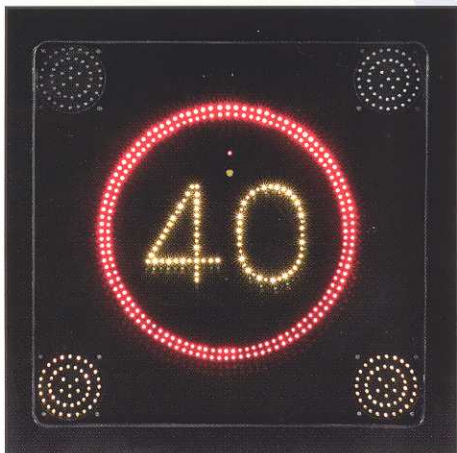

INTERACTIVE SIGNS

Signature offers tailor-made solutions to your traffic calming and accident prevention problems. To ensure that the equipment chosen is fully utilised and effective, our experienced engineers will visit the location to survey the site and recommend its application. In addition, Signature offer remote switching, data collection and verification, plus speed reduction consultancy.

In addition to this, we are able to offer short or long-term maintenance contracts, for both ours and our competitors products.

See separate leaflet for more details.

NRWSA

As you can expect from a nation-wide company, Signature Contract Managers, Site Supervisors and Operational staff are trained to NRWSA and hold the necessary qualifications to support their specific role.
