PRODUCT SPECIFICATION

ANTI-VANDAL STAYFAST COLLAR

This unique stylish and highly functional Stayfast Collar, has been designed to convert Standard Galleries into a truly Anti-Vandal assembly. The concept takes into account the need for a unit that is both easy to assemble and dismantle.

The Stayfast Collar is manufactured from Spun Aluminium, polyester powder coated black/grey, with 1 single Allen Key Tamperproof fixing. The unit is available to suit a standard 76mm Cast Aluminium Gallery and the 114mm Zebrasafe and Centresafe Gallery.

Order Guide: STAYFAST 76B or 114B Black for Pedestrian Crossing
 STAYFAST 76G or 114G Grey for Centre Island Refuge

STAYFAST COLLAR - BLACK (shown fitted to Gallery)

PATENT PENDING 0404792.4

LED BEACON – shown below

With Patents Pending, the Stayfast Collar is the ideal partner for use with Signatures LED Beacon units, which offers long-term energy and maintenance cost savings.

The Signature LED Beacon Units are manufactured utilising the very latest in LED and electronic technology. Power Supply - 12V or 230V.

The Aluminium housing provides additional protection against damage from water/dust ingress and vandalism.

Initial tests report energy consumption as low as 2.5W

The LED Beacon is available as a Flashing Unit for Pedestrian Crossing or as non flash for Centre Island Refuge.

The units fits into existing gallery – no need for separate lampholder or flasher unit. Supplied with flylead and connector block.
