NEMA 3 Pin Socket - L415

Designed to BS5972 specifications the L415 uses Phosphor Bronze contacts mounted on a Brass terminal block. These materials have been selected to capitalise on their superior contact and hard wearing properties.

Our L415 NEMA socket is suitable for all one part photocells and is certified to a rating of IP65 as standard.

The sealing of the collar is by ultrasonic weld which ensures maximum life.
