

MRL6/SRL8F IP65

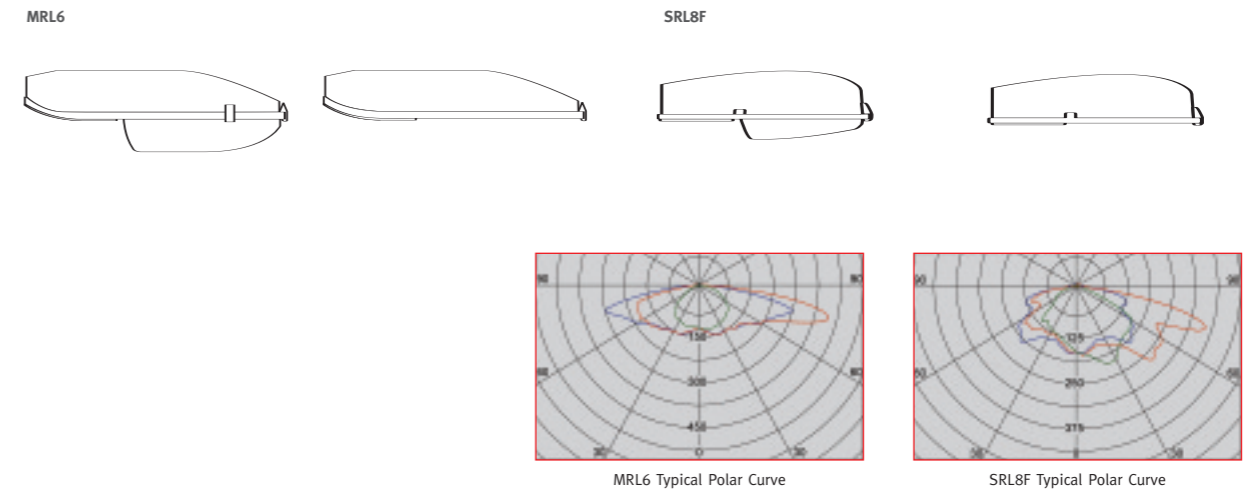

FOR USE IN: MRL6 – main roads and motorways; SRL8F – side roads and residential schemes.

Key Features and Benefits

- **Highly Efficient** The MRL6's and SRL8F's excellent light technical performance is achieved with realistic economics
- **Corrosion resistant:** A long, corrosion-free life is guaranteed through the use of the moulded GRP canopy
- **IP65:** Excellent ingress protection is provided with the lamp compartment rated at IP65 (and the gear compartment IP44)
- **Two body sizes:** SRL lamps up to 100W SON-T; MRL 100W to 400W
- **Glass/bowl:** Injection-moulded, UV stabilised polycarbonate bowl, flat glass version available
- **Mounting:** Side entry - MRL 42mm dia x 100mm long / SRL 34/42 dia mm x 100mm long; post top - MRL/SRL 76mm dia x 76mm long. Both require an adaptor
- **Good impact resistance:** The injection-moulded, UV-stabilised polycarbonate bowl is rated IK08
- **Minimal light spillage:** The flat glass version is available in both body sizes where required
- **Faceted optic:** The faceted reflector ensures excellent distribution control
- **Insulation:** Class 1 (must be earthed)
- **Ambient temperature range:** -20°C to +25°C
- **Standard ballast:** 230/240v thermally protected

Dimensions and Weights

Type	Length mm	Width mm	Height mm	Windage	Weight kg
MRL6					
BOWL	746	340	240	0.133	7.7-10.7
FLAT GLASS	746	340	145	0.099	8.4-10.7
SRL8F					
BOWL	537	268	175	0.067	3.57-4.90
FLAT GLASS	537	268	127	0.056	3.90-5.23
