

MIKE,

I THOUGHT YOU'D LIKE THIS - I DON'T THINK YOU'VE GOT ONE. IT'S ALL ORIGINAL, INCLUDING THE CELL WHICH IS STILL WORKING. I'VE INCLUDED A NEW BOWL AND A BALLAST (AND A COUPLE OF LAMPS) AS THE ORIGINALS ARE GETTING TOWARDS THE END OF THEIR LIVES. (OBVIOUSLY THE LAMP ISN'T ORIGINAL, IT WILL HAVE GOT THROUGH A FEW DURING ITS LIFE!)

IT CAME FROM THE COLUMN NEXT TO DEBENHAMS, OUTSIDE "SUBWAY" AS YOU WALK UP TO DUCKWORTH SQUARE. IT WAS CHANGED IN ORDER TO CONVERT TO WHITE-LIGHT, IN KEEPING WITH THE OTHER METAL HALIDES IN THIS AREA. IT WAS REPLACED WITH AN ARC WITH A 70W WHITE LUX LAMP.

AT THE TIME THIS LANTERN WAS MADE PHILIPS ONLY OFFERED INTERNAL IGNITOR OPTIONS ON THEIR 50 AND 70W H.P.S. LAMPS.

SEE YOU SOON,

JEREMY
